Code Quantum Hackathon

Web Developer- San Antonio Fire Department Wellness Application

November 2022

- Developed from scratch a web application using **JavaScript, HTML/CSS** focusing on the overall wellbeing of firefighters in the SAFD including mental health self-assessments, useful articles, cancer awareness, and much more. (<https://stephanieyounes.github.io/SAFDCare/>)
- Upheld wireframe/design using **Figma** and implementing **Bootstrap** (CSS Framework) for seamless and uniform look.

JP Morgan Code for Good Hackathon Winner

Frontend Developer

October 2021

- Lead and designed frontend of web application for The Human Society North Texas of which displays patient data on a dashboard of graphs. Donors are now able to see the impact made by their investment in The Humane Society by using our web application.
- Utilized **ReactJS** and integrated to our backend **Django** server as a team to create the winning web application.

Python Developer –COVID-19 Vaccine Efficiency

November 2021

- Created Python script analyzing how effective the vaccine has been from March 2021 to October 2021 on different countries.
- Led team as the group leader with weekly meetings, constant communication, and GitHub setup.

TechTogether Boston Hackathon

Developer- RateMyFit

September 2021

- Developed a full stack, Instagram clone using **JavaScript, CSS, React, Firebase & Material-UI** with the intention of creating a diverse and well-rounded website in which users post outfits and others are able to comment advice and words of affirmation in order to grow a community of inclusive users.
- Co-lead making the website and brainstorming sessions as a team to create the idea of a judgement free application.

Leadership:

ACMW UTSA

May 2020-May 2021

Vice President

- Lead and managed team of 7 officers & junior officers by **operating constant meetings including team building sessions, officer meetings, and official ACMW meetings ranging from 20-120+ members at a time.**
- **Overhauled Recruitment and talent acquisition by onboarding** 5 students, serving as junior officers with the intention of growing ACMW at UTSA with the use of advertising and outreach.
- **Spearheaded marketing** by overseeing redevelopment and constant updates of social media with a **20% growth** in outreach by the first month in office and **30% growth** by the end of my term, co-designing a new logo, and reaching 50+ new active members
- Contacted and scheduled frequent meetings with over 30 companies and potential guest speakers over the course of a year for the benefit of our ACMW members making sure to keep inclusion and diversity in mind. Made an effort to plan all-inclusive meetings with minorities in STEM to tailor meetings for our members who are part of a minority group.
- Scoped long term team strategies to ensure the success of future ACMW officers including implementing a new outreach officer role, created social media templates and strategy, and a stable and new outreach platform.

4 Seasons Yogurt

2017-Present

Director-Go-To-Market/Social Media Director

- Created from scratch all technical marketing tools including social media and website growing outreach through online advertising, growing Instagram account from 0 to 250+ followers resulting in **25% in customers growth**
- Increased sales and community outreach by constantly managing social media and website with frequent updates.

4 Seasons Yogurt

Director of Operations

2018-Present

- Co-lead about 5-10 employees at a time with constant training, weekly schedules, and frequent employee meetings.
- Re-shaped and directed online orders during COVID-19 with the use of online delivery services and curbside.
- Lead and administer communication with advertisers, customers, and customer support.
